KGOMOTSO NACANE

FULL STACK WFB DEVELOPER

kgomotsonacane@gmail.com | GitHub | LinkedIn | Twitter | Portfolio

SUMMARY

Dedicated software developer with a strong foundation in web development and a passion for creating user-friendly applications. Experienced in HTML, CSS, JavaScript, React, and Ruby on Rails. Skilled in problem-solving, attention to detail, and remote collaboration. Seeking opportunities to contribute to impactful projects and collaborate with fellow developers.

SKILLS

- Programming Languages: HTML, CSS, JavaScript.
- Frameworks and Libraries: Bootstrap.
- Version Control: Git, GitHub.
- Web Technologies: DOM Manipulation.
- Skills: Problem-Solving and Debugging.
- Soft Skills: Collaborative Teamwork and Communication.

EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS Full Stack Web Developer

Remote February, 2023 – Present

Project 1: Microverse First Capstone - Music Concert App.

Developed a music concert application as the first capstone project at Microverse. Implemented features such
as event listings, artist information, and ticket purchasing. Utilized HTML, CSS, JavaScript, and React to create
an interactive and visually appealing user interface.

Project 2: Awesome Books.

• Created an app called Awesome Books that enhances organization by incorporating modules. Focused on utilizing ES6 modules to write JavaScript code in a modular manner. Implemented features like adding and removing books, and persisting data using local storage.

Project 3: To-do List.

• Developed a to-do list tool for developers to track work, progress, and prioritize tasks. Implemented unit testing using the Jest library to ensure code quality and functionality. Utilized HTML, CSS, and JavaScript to create an intuitive user interface.

MICROVERSE

Remote

Mentor (Volunteer)

March, 2023 - April, 2023

January, 2022 - December, 2022

 Conducting regular check-ins with students to assess their progress, addressing any challenges they may be facing, and providing motivation and encouragement.

GAUTH-EXPECT Online Math Tutor

Remote

• Developed problem-solving, analytical thinking, and clear communication skills for software development.

- Enhanced problem-solving skills by breaking down complex problems.
- Overall, my experience tutoring math at GauthExpert provided me with a rich set of skills that seamlessly transitioned into the realm of software development.

EDUCATION

MICROVERSE

February, 2023 - Pending

Remote Full Stack Web Development Program, Full Time.

- Developing fundamental skills in algorithms and data structures, and applying these skills to full-stack development projects.
- Gaining proficiency in developing full-stack applications by practising algorithms, data structures, and React, Ruby, Rails, and Redux.
- Learning and practising core programming concepts, including algorithms, data structures, and full-stack development, while building practical projects with Ruby, Rails, JavaScript, React, and Redux.
